Subject: Human resource appointment

Good afternoon council,

I was unable to attend the meeting last night but I write to you today in regards to the appointment of Kate Turpen to the Human Services Advisory Committee.
I urge you to reconsider this appointment and/or at minimum check her background and previous employment history. At a prior school board meeting Ms. Turpen threatened an RSU14 parent that she would put his daughter in a chest binder without his consent or acknowledgment. This is completely reckless and to appoint a person who has done just this to a human resource advisory committee is wild!

Sincerely,
Carrie Grant
