MEMORANDUM

To : Town Council
From : Barry Tibbetts, Town Manager
Date : May 21, 2020
Re : MDOT Two-Party Planning Study Agreement

The attached MDOT Two-Party Planning Study Agreement is designed to evaluate safety and mobility improvements along Route 302. The total cost is \$150,000, of which \$75,000 will be funded from an MDOT grant and \$75,000 will be paid from TIF funds.

The study will review and make recommendations on access management, frontage roads, changes to land configuration, additions to the roadway grid, traffic demand management, traffic signal modifications, bicycle and pedestrian access, and the impacts of the proposed improvement to level of service and safety. It also includes task 4b which may or may not be included in the resulting consultant contract, which is to identify conceptual alternatives for a new highway connector between Route 302 in Windham and Route 302 north of Windham.

This study will provide detailed information and recommendations for traffic solutions, to be used in obtaining funding options.
