Barry,

Thank you for this update and I appreciate the time and attention the committee provided to review the requests for the disbursement of funds from the National Opioid Funds received by the Town of Windham. I have attached the invoice for the purchase of the boxes to be presented/submitted to the Town Council. We plan to include printed prevention education materials within each box. We will be collaboration with 211, DHHS, and NE Poison Control for additional free prevention education materials. Distribution will be within the Town of Windham at public events and upon request from BTI staff. We are thrilled to hear the approval of the Medi Box request and have included the cost for printing materials in the grant request.

Patrice

Subject: Fwd: Opioid Monies distribution meeting

Hello Patrice,

Sorry for delay in getting this answer. Been a process, hopefully will be easy next time. Below is the summary of the Substance Abuse Committee meeting and determination, I will have this on the August agenda for Council approval, You can plan on the Medi Box Harm Reduction funds being available. I foresee no reason for this not too be approved. The Family Fun Festival did not meet the criteria.

Thanks Barry

Subject: Opioid Monies distribution meeting

Good day,

The SPGrant committee met today to review the requests for National Opioid Funds and the following is the notes from that meeting.

In attendance was Phil Rossetti. Mark Morrison, Mike Duffy, Marge Govoni and Bob Burns, Asst Town Manager.

The committee reviewed the purpose of the fund and its possible disbursement. We also agreed to have another meeting at a later date, with Town Manager Barry Tibbetts, to have further discussions on the requirements for the awarding of these funds.

We reviewed the application for MEDI BOX HARM REDUCTION and we agreed unanimously that it met the intent of the distribution of said funds. We are recommending that this program receive the full amount of \$4,800 as requested.

We reviewed the application for FAMILY FUN FESTIVAL and voted unanimously to NOT fund this program due to its inability to meet any of the distribution criteria exhibits.

The National Opioid Fund balance of \$22,158.35 will be reduced by \$4,800 leaving a balance of \$17,359.35 if our recommendations are accepted.

Next meeting and whether it's Zoom or in person is TBD.

Best,
Marge Govoni
