# Your Curbside Collection Will Soon Be Changing

Beginning on **September 9th** your curbside trash and recycling will be picked up by an automated side-load truck.

**In an effort to improve efficiency to collection routes,** your collection day or location may be changing. Some roads may require one-sided pickup or gang pile locations.

Residents will no longer need to use the blue Windham trashbags. All trash should be bagged and must be inside of the cart with the lid closed. Casella will no longer collect any material, recycling or trash, left outside of the carts.

Prior to the start of the program **Eligible Residences\*** will receive two new 64-gallon wheeled carts. Colored lids, blue for recycling, black for trash, help to keep items secured and dry. There is no need to be home to receive your carts. Carts will include additional instructions for placement as well as a calendar and frequently asked questions.

**\*Single Family Homes and Complexes with 4 or less Residential Units**
