Subject: RE: Kettle Estates Project - Dusty Rhoades Lane

Hi Katy,

I went out to the site this morning.

Dusty Rhoades Lane appears to currently only serves one residence and two separate garages. It has several small pot holes and some areas of ice buildup whereas there are other areas that are down to gravel. In its current state with the current weather conditions it does appear that emergency vehicles could safely use this road.

Subject: Kettle Estates Project - Dusty Rhoades Lane

Hi Brent,

I have a question for you regarding the Kettle Estates project off Varney Mill Road. The main entrance for this project will be an extension of Dusty Rhoades Lane. Jared Robie isn't allowed to improve the first 300' of this road, so I wanted to check with you to see if this section of road will be able to allow safe access for emergency vehicles in its' existing condition.

Thanks,

Katy
