

**Windham's New
Sewer System
is ready for you.**

**Modern.
Sustainable.
Efficient.**

Dear Windham Property Owner,

We're thrilled to announce the near completion of the North Windham Sewer Project—a major step forward in protecting our environment, enhancing public health, and supporting responsible growth. All that's left is for you to connect.

This state-of-the-art system will attach your business to reliable, sustainable wastewater infrastructure, reducing pollution and improving water quality across our community.

What this means for you:

- Improved sanitation and property value
- Reduced reliance on aging septic systems
- A cleaner future for our lakes, rivers, and groundwater

We will be contacting you shortly with details about the connection process.

Thank you for your support and partnership in building a better Windham.

Windham's New Sewer System opens April 2026
