

Dear Barry,

The Windham Historical
Society wanted you to
know about the
wonderful gift it
received from the
Public Works Department.

Windham Public Works
Attn: Jonathan Earle
185 Windham Center Rd
Windham, ME 04062

Dear Mr. Earle:

The Windham Historical Society was thrilled to receive a call from Windham Public Works asking if we were interested in some granite slabs that had formerly been part of the Swett Road Bridge. We were thrilled to accept them and knew exactly how the Society could use them. We appreciate being able to obtain a piece of Windham history and were excited to incorporate them into our Village Green. The granite slabs are being used to create a cattle impound on the Village Green. It will be exciting to teach visitors about the role cattle impounds played in early village life.

We would like to thank Pete Woodbury, Wayne Diffin, Carl Freeman, Dave Rampino and Ron Zezina, the crew that worked so hard to bring the stone to the Society and place them exactly where we wanted them.

Thank you again for your support of the Windham Historical Society and the Windham community.

Sincerely,

Susan Simonson
President
