Hello, this message is for Steven Julio. Just want to call to have my input on what you are trying to have passed in the town of Windham often turning leaf Dr. umm 30 units umm so town home or a condo umm I've had chats with you before about the growth of the town, but you're telling other people that you have had no complaints. So this is. Bobby Yarita calling once again to see if you guys can start to, umm, come up with a. The conclusion on all these apartment buildings, condos, townhouses, enough is enough. You guys are totally ruining our town. Umm crime rate is up, umm, the school's overcrowded, the traffic is absolutely insane and enough is enough. It's time for you guys to wake up to reality. No one in this town is happy you guys have ruined it. You should be very ashamed of yourself. So I know the walk through is on Saturday and you need to think deeply about what your decisions are going to be. Because nobody is happy. Stop.
