Memorandum

To: Donald H. Gerrish; Town Manager *KLS*
From: Kevin L. Schofield Chief of Police
Subject: Department Ballistic Shield Proposal
Date: March 21, 2019

We are requesting to procure two (2) ballistic shields for the police department. Currently we have one ballistic shield acquired as a used item from the sheriff's department a couple of years ago. We would request adding two Threat level three shields which have the capacity to stop higher caliber rifle rounds.

We have been working on increasing our less than lethal capacity to help manage volatile situations. Adding these ballistic shields will allow a higher level of protection for officers at high risk calls.

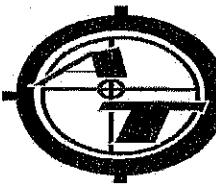

Recently, we have trained with and had available for staff a ballistic shield currently utilized by CCSO deputies. This shield is protech shield size 16 x 30 inches. We are comfortable that these shields would not only provide adequate ballistic protection, they are designed for easy of handling.

We have procured a cost from two vendors: Atlantic tactical \$2550 for the protech shield
Hanging by a thread: \$2250 for Gator Hawk shield

Each shield is a threat level 3 shield rated for higher caliber rifle rounds. We will happily accept authorization of either shield however we would prefer the Protech model. We are requesting automation to utilize \$5100 from Federal forfeited asset funds to procure these items.

Enclosures:

Subject: Shields

Chief,

Tony gave me the price sheet from his Point Blank rep, the numbers are very unrealistic (\$11,000.00). I called him and he said he would reach out again to his rep but, in the meantime he is also working with another company called Gator Hawk. I looked at some of the shields and have attached their prices below. I will continue to look at them to see if they offer the standards we are looking for. As we discussed this afternoon we may have to go with Atlantic Tactical as they appear to have the best product and the best price.

If you have any questions feel free to reach out to me,

Tom
