Hi,

I just wanted to comment on the Andrew school redevelopment at 55 High Street. I have lived at 58 High Street for 42 years and I am looking forward to this development. The 18 affordable apartments for seniors is a wonderful idea. The look of the apartments will fit in really nicely with the neighborhood and will be a great addition. I did notice on the plans a cross walk over to the side walk on the other side of the street and would suggest that possibly that be a slightly raised crosswalk to slow down the traffic on this street. I hope this development is approved. It's time to turn that property into something nice and get rid of the used car lot it has turned into.

Thank you for your time,  
Terri Villacci
