Good Afternoon,

I am writing to express our support for the Salty Dog Daycare business in Windham! It is our understanding they are trying to gain traction in the commercial district to be approved to operate their dog daycare business.

Please consider this as a great business opportunity in our community as many dog owners are seeking their services in our town, and frequently travel OUT OF TOWN to have their pets cared for. Having this service in our town would not only add goodwill to the overall services offered, but additional revenue to other businesses as dog owners can purchase locally versus conducting business in other nearby towns such as Gray, Cumberland and Falmouth.

Thank you!
