Subject: Gun safety

To whom it may concern,

My name is Mary Libby. I am writing this after watching the latest horrific school shooting. I realized we need gun locks on our hunting guns kept in our home. We e have no small children but do have teenaged grandchildren. In fact the same ages as the young man who shot and killed 4 people. He terrorized a whole school and community with a gun his father gave him as a gift . I understand some police precincts give trigger locks to the community. Windham does not. When I asked the very pleasant officer if this has ever been discussed she said she didn't know. I suggest that a program such as this would be an inexpensive way to help protect our schools and community. I am sending this to our representatives, and town council. I also suggest this conversation be started on our community and with our police officers. I hope someone responds to this. Please. I would hate to see our community suffer as do many others have. Thank you in advance for giving this any consideration.

Mary Libby
