If a growth permit expires, a subsequent application for a growth permit on the same lot shall be processed and ranked as a new application pursuant to § 101-7D above. Expired growth permits shall be added to the following month's allocation of available permits.

~~(6)(3)~~ At the end of each calendar year, if the number of approved applications for growth permits from the annual allocation exceeds the number of permits available for issuance, such approved applications shall remain pending into the next calendar month-year and shall retain their ranking according to the order in which they were approved as complete, and the basis of points earned pursuant to § 101-7D(4) above.

F. Establishment of the reserve pool of growth permits.

- (1) On the effective date this chapter, a reserve pool of 50 growth permits shall be established. Growth permits from the reserve pool shall be allocated in accordance with the provisions of Subsection G below.
- (2) The growth permits in the reserve pool, as well as any unissued growth permits transferred to the reserve pool pursuant to § 101-7C(1) above, shall expire three years after they are added to the pool.
- (3) Twenty of the growth permits in the reserve pool at the beginning of each calendar year shall be set aside for affordable housing units and may be used during the year as set forth in Subsection G. If any of these growth permits are not issued during the year, they shall not be carried forward, but the affordable housing set aside for the following year shall be reset at 20 growth permits.
- (4) The Town Council may by order add growth permits to the reserve pool following public hearing as part of its periodic review of this chapter or if the available growth permits are not adequate to allow the construction of a project in accordance with Subsection G below. If the Town Council votes to add growth permits to the reserve pool, a minimum of 10% of those permits shall be set aside for affordable housing.
- (5) If the number of growth permits remaining in the reserve pool at the end of a calendar year is less than 20, additional growth permits shall automatically be added to the pool so that 20 growth permits are available, and these 20 permits shall be set aside for affordable housing units.

G. Allocation of growth permits from the reserve pool.

- (1) The Code Enforcement Officer may issue up to 10 growth permits from the reserve pool each calendar year for detached single-family dwelling structures that are located on lots that are not part of a subdivision. These permits shall be issued according to the order in which they were approved as complete.
- (2) Except as provided in § 101-7G(1) above, the Town Council shall be responsible for determining if a subdivision or other development is eligible for the allocation of growth permits from the reserve pool.
- (3) A property owner or his/her representative may request that a project be designated as eligible to receive growth permits from the reserve pool at the time of subdivision or site plan review for new or expanded projects. An approved subdivision or project as of the date of adoption of this provision may also be determined to be eligible to receive growth permits from the reserve pool. This request shall be in writing on forms provided by the Code Enforcement Officer and shall demonstrate how the project conforms to the requirements of this subsection.
- (4) If the Town Council determines that a subdivision or other development is eligible to receive growth permits from the reserve pool, it shall notify the Code Enforcement Officer, in writing, of this determination.
- (5) The Town Council shall determine that a subdivision or other development is eligible to receive growth permits from the reserve pool only if it finds that at least one of the following are met:
 - (a) The dwelling structures to which the growth permits may be allocated are part of a contract zone in which the provisions of the zoning provide for some or all of the growth permits needed for the project to come from the reserve pool.
 - (b) The dwelling structures to which the growth permits may be allocated are part of an affordable housing project in which at least 50% of the dwelling units are affordable housing.
 - (c) The dwelling structures to which the growth permits may be allocated are part of an approved subdivision or other project and will be located in two-family, multifamily, or mixed-use buildings.
 - (d) The dwelling structures to which the growth permits may be allocated are in an area designated as a Growth Area in the Town of Windham Comprehensive Master Plan-~~2016~~ [Update](#).
 - (e) The applicant has established that it would be an undue hardship to delay construction of the dwelling structure. This basis for allocation shall not be available to any applicant that is the developer or owner of the subdivision in which the dwelling structure will be located.
- (6) The growth permits in the reserve pool are intended to allow the construction of housing that is not easily accommodated within the annual allocation or that could unreasonably reduce the availability of growth permits to other property owners because of the scale or type of development. Therefore, in considering requests for the eligibility of projects to receive growth permits from the reserve pool, the Town Council shall approve such requests only if it finds that the use of growth permits from the annual allocation [see § 101-7G(3) above] may not permit the dwelling structures to be constructed in a timely and efficient manner or that the use of the

growth permits from the annual allocation may unreasonably reduce the availability of growth permits to other property owners due to the scale of the project and the number of permits available through the annual allocation.

- (7) If the Town Council determines a project to be eligible to receive growth permits from the reserve pool, the record owner of the property shall apply for a growth permit for each dwelling structure in accordance with § 101-7D above.
- (8) The Code Enforcement Officer shall process the application for growth permit(s) from the reserve pool in accordance with Subsection E above except as follows:
 - (a) Growth permits shall first be issued from the annual allocation. If no growth permits from the annual allocation are available at the time of application, the Code Enforcement Officer shall issue the growth permits from the reserve pool.
 - (b) If the subdivision or development has not previously received 20 of the available growth permits from the annual allocation during the current calendar year, the Code Enforcement Officer shall issue the growth permits from the annual allocation until the 20 limit is reached, and any additional growth permits shall be issued from the reserve pool.
 - (c) The issuance of growth permits for a subdivision or other project that is subject to contract zoning shall occur in accordance with these provisions unless the contract zoning contains specific alternative provisions. In this case, the Code Enforcement Officer shall issue the growth permit in accordance with the terms of the contract zone.
 - (d) If the subdivision or other project utilizing growth permits from the reserve pool is an affordable housing project or includes affordable housing units, the growth permits for the dwelling structure(s) shall first be taken from the 20 reserve pool permits set aside for affordable housing. If the growth permits available in the affordable housing allocation are not adequate to allow construction of the project, the balance of the growth permits shall be taken from the permits in the reserve pool that are not set aside for affordable housing.

H. Transferability. Growth permits are issued only for the specific lot identified in the growth permit application. A growth permit may be transferred to a new owner of the lot, provided notice of the transfer of ownership is given, in writing, to the Code Enforcement Officer before the growth permit is replaced by a building permit. Transfer of ownership does not change the date of issuance or the ranking of an issued growth permit. An application for a growth permit is not transferable; however, if property which is the subject of a growth permit application is conveyed to another person and the grantee submits a growth permit application within 30 days of such conveyance, the application shall be credited the same number of points assigned to the prior application under § 101-7E(3)(d).

§ 101-8. Periodic review of provisions.

The Town Council shall conduct a periodic review of this chapter to evaluate whether the rate of residential growth remains consistent with the Town's ability to absorb the growth and shall determine whether the number of growth permits available under this chapter should be adjusted by amendment to this chapter. The Town Council shall conduct a review at least once every three years. The Town Council may seek assistance or advice from the Planning Board in connection with such review. This section does not limit the Council's authority to review and/or amend this chapter at any other time.

§ 101-9. Violations and penalties; enforcement.

Any person who constructs, creates or places a dwelling structure within the Town of Windham without a growth permit required by this chapter or who owns or occupies a dwelling structure constructed, created or placed within the Town of Windham without a growth permit required by this chapter commits a civil violation and is subject to the fines, penalties and remedies, including but not limited to payment of all attorney fees and costs, as provided in 30-A M.R.S.A. § 4452. Each day a violation continues to exist after notice of the violation constitutes a separate violation. This chapter shall be enforced by the Town of Windham Code Enforcement Officer in the manner provided for enforcement of violations of the Zoning Ordinance under § 120-1004 of Chapter 120, Land Use.

§ 101-10. Appeals.

- A. An applicant for a growth permit who is adversely affected by a decision or action of the Code Enforcement Officer in the administration of this chapter may appeal to the Windham Board of Appeals under the provisions governing administrative appeals in § 120-1105 of Chapter 120, Land Use. Decisions of the Code Enforcement Officer to approve a growth permit application as complete or to issue a growth permit are not appealable.
- B. An applicant requesting that a subdivision or other development be determined to be eligible to receive growth permits from the reserve pool who is adversely affected by a decision of the Town Council may appeal to Superior Court in accordance with Rule 80B of the Maine Rules of Civil Procedure. Actions of the Town Council with respect to this chapter are not appealable to the Windham Board of Appeals.
