Re: Snow plow contract

I am seeking approval to award the five year snow plow contract to Sumerian Irrigation.

In late July we advertised for and sent to eight contractors an RFP for snow plowing services on 23.69 miles of public and public easement roads for a five year period from 2016-2017 thru 2020-2021 with bids due September 7. We received one bid from Sumerian Irrigation. This is the same contractor we have had for the last three years.

Sumerian Irrigation has plowed for the town the last three years and done an acceptable job. I would recommend that they are awarded the bid.
