**Subject:** Crossridge neighborhood

Chair Govoni and members of the Planning Board,

We are writing in opposition to the proposed new development within the Crossridge neighborhood. Our family has lived at 31 Crossridge Dr. since 2015.

We do not believe further construction should be approved until the following concerns are addressed:

- The roads will still not be wide enough to meet subdivision standards.
- There is only one entrance/exit to the entire neighborhood.
- Who becomes responsible for future road maintenance? Will the town take over?

We look forward to future discussions and appreciate your consideration on this matter.

Sincerely,  
Dr.'s Rachel and Andre Achenbach
