Dear Mr. Burns,

We received your letter and did some preliminary research on LD 1829. It went through the legislative and public hearing process without opposition, and passed by both the House and Senate unanimously. Governor Mills signed it into law on June 20, 2025.

We are interested in your concerns regarding LD 1829, but need specific details on how the density requirements of LD 1829 will impact the town of Windham's upcoming projects. Please propose an amendment to the law and provide us this information. Thank you very much.

Sincerely,
