Douglas Fortier, Director
Windham Public Works
8 School Road
Windham, ME 04062

Dear Mr. Fortier:

Please be advised that the speed zones described in the attached memorandum for River Road in the Town of Windham have been approved. It was necessary to adjust the speed zoning on the northern and southern approaches to the roundabout at the intersection with Windham Center Road. The official speed zone on these 2 approaches has been established as 35 MPH. No other changes in the speed zoning on River Road have taken place (refer to attached memorandum).

In the next few weeks, the Department will make all necessary adjustments to the signage associated with speed zoning for this area.

Should you have any questions regarding this matter or wish to discuss this in more detail, please feel free to contact Randy Illian, Southern Region Traffic Engineer, at 885-7000.

Sincerely,

Cathy J. DeSouza
Southern Region Assistant Traffic Engineer

Stephen Landry, PE
State Traffic Engineer

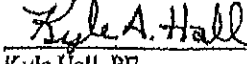

COMMENTS:

The Department prepared this memorandum for record keeping purposes only, following the installation of a roundabout at the intersection of River Road and Windham Center Road in the Town of Windham. The speed zone on the northern and southern approaches to the roundabout have been adjusted to account for the newly constructed roundabout. No other changes in the speed zoning along River Road have taken place.
