My concerns are as follows:

The added traffic from additional vehicles across the culvert at the end of Barnes Rd. Black Brook runs along Meredith Drive from under Barnes Rd and Washout Way. Without proper measures taken to prevent Black Brook from backing up the results may be disastrous.

The added traffic on Barnes Rd will increase the issues we already have on Barnes Rd of speeding. We have many walkers, bicycle riders, runners, dog walkers and children playing. We constantly have people speeding!

The previous contractor promised us a paved road which never happened - so I am skeptical of any promises made about road improvements.
