Hello,

My response is the same. We are not required to generate a report that we do not typically generate in the course of our normal business process.

Have a good day.

Hi,

Thank you for your response, I am requesting a standard report that can be generated relatively quickly from the bookkeeping system. The report must include vendor name, purchase description, purchase date and total price paid for all purchases, similar to what many towns, counties and schools share. For your reference I have attached few samples,

Please let me know if this data is available on your website in agenda packet. If the cost exceeds \$100, please proceed to close this request.

Thank you for your time and assistance.

Regards,

Abbas Khan

Good morning,

This email serves as both acknowledgement and response to your request for information.

Be advised that in this instance, requests will not be fulfilled by a query of raw data from our software. The report being requested does not exist as a pre-existing document. You are asking the Town to generate a new report by running the software—essentially asking for the creation of a compilation of data that is not otherwise available. FOAA does not require the Town to do this. The request is exempt under 1 M.R.S. § 408-A(6) because fulfilling it would require the creation of a record that does not currently exist (a specific report).

Sincerely,

**Tammy Hodgman**
