Bobby. Thank you for your feedback. Please look to the Council agenda over the next two months on the forming of this ad hoc committee so you can provide your feedback to the committee, and we will be asking for volunteers to participate with the committee. I have your feedback and will make sure your comments are shared with the committee once it is formed.

Thanks again for your response

Mark Morrison

Warning: Unusual sender <rwasson@une.edu>

You don't usually receive emails from this address. Make sure you trust this sender before taking any actions.

Hello Mark,

My name is Robert Wasson, my wife Olivia and I live at 25 Misty Drive that abuts the corner lot regarding the development of the "mini public park". I was emailing you this evening in providing feedback regarding the park's development.

We would be in favor of clearing and cleaning up the lot as there are a lot of leaves and brush along with dead, rotted and broken trees. Although, we would appreciate it if a lot of the healthy trees, oaks and

piners could remain, leaving the lot fairly wooded. This would still allow for plenty of space for picnic tables and maybe a gazebo while allowing for the area to keep a wooded nature feel. There is a fair amount of wildlife, along with a family of deer that frequents through the lot and our backyard and backyards of our neighbors. Leaving the area fairly wooded would ensure that they remain passing through and present.

There is a dirt path throughout the lot that connects Misty Drive to Forbes lane. It would be great to have that path more formed either as gravel, stone or paved.

With our property abutting the lot along with other fellow neighbors we would appreciate if there was a fence, or a wall constructed for separation and privacy purposes as the park would look directly into our backyard as well as the yards of fellow neighbors. It would be appreciated if the businesses involved were local businesses either in the city of Windham or the surrounding area as this would further support the community and local business and revenue.

Please feel free to email me at rwasson@une.edu or my wife Olivia omondene@une.edu or my personal phone is 978-239-7421.

Hope all is well,

-Bobby
