

Regional Transportation Program (RTP) would like to provide the Windham Town Council an update on the Lakes Region Bus Service. In 2013, RTP launched the Lakes Region Bus Service funded by the FTA, MDOT and the Department of Energy through Cumberland County. This is a fixed route public bus service with stops along Route 302 between the Town of Naples and the City of Portland. This service provides a much needed link between the urban and rural areas of Cumberland County. The designated bus for this service is a hybrid vehicle that is both fuel efficient and environmentally friendly. The bus has one stop in Windham, at 795 Roosevelt Trail. The cost is \$3 for a one way-way ticket with discounted fares for students and senior citizens, and the service is offered Monday-Friday. Also included is a Lakes Region Bus rack card, which provides a map and schedule for the bus.
