To Whom it May Concern,

Please uphold the Town's 2021 Open Space Plan. This planned subdivision is wholly enclosed within the Windham's 2021 Open Space Plan titled "Rural Character Preservation Zone". This zones's bullet points highlight a limit on housing and commercial and development while also prioritizing farmland. Of course houses will be built, but for 27 houses clustered next to a farm is not the spirit of the Town's the town's designated rural zone. How will 27 individual wells and septic systems affect bumble route and watersheds down the line?

Please do not waive any reviews necessary for this development.

Amanda Garcia
