Steve,

Another item that I should mention is that the Applicant's submittal did not include any plan outlining housekeeping and maintaining measures for the underdrain soil filter and stone drip edge filter to ensure that it continues to operate as designed.

Steve,

Yes, based on the reasons they provided in their 6/22/21 response including the addition of the filter sock along the fire truck access, I do support the waiver for treatment to less than the Ch. 500 standards,

Hi Mark,

Do you support the waiver request for treatment less than Chapter 500 standards for cultivation facility? If so, just let me know.

Thank you.

Best,
