

Joint Public Works & Bus Garage Project

Meeting Minutes

February 23, 2017 @ 6:00pm

Attendees: A. Plante, S. McLean, K. Brix, B. Hansen, D. Nadeau, T. Nagle, D. Fortier

Town Council and RSU Co-Chairs Appointed: David Nadeau & Scott McLean

This was the committee's first meeting held at the Public Works Building in the break room. A brief review of the schematic design and anticipated cost of the building were discussed. Tony reached out to Allied Engineering and coordinated a meeting with the committee to discuss cost and design in more detail.

To date the committee is lacking two community members to make up the full panel. It was discussed and agreed that the applicant wording was too specific. Tony reworded the description to hopefully broaden community interest. Scott then requested updated info to be broadcast via List Serve.

Meeting was concluded with a tour of the Public Works Building as well as the Bus Modular.

Next meeting TBD dependent on availability of Allied Engineering

Respectfully submitted,

Scott McLean

RSU Co-Chair
