### August 2017 Monthly Report

#### **It is the Mission of Windham Fire-Rescue Department**

**“To assist the residents and visitors with emergencies or other situations that they are normally unable to handle themselves.”**

#### **Performance Measures Related to Our Mission:**

Response times are comprised using the amount of time it takes from our initial dispatch to when our first unit arrives on the scene. The average response time for August during the day shift of 7:00 AM to 7:00 PM was 6.68 minutes. The average response time during the night hours of 7:00 PM to 7:00 AM was 6.47 minutes. The departments total response time for August was 6.58 minutes. Our average turn out time which is the time from dispatch to en route was 2.06 minutes.

The department covers five (5) per-diem shifts during the day. In the 31 day period that provides us with 1860 hours of daytime coverage. We had a total of 160 vacant hours during the day and as a result of these open shifts we had reduced coverage during those times. We were able to cover 1700 hours of the 1860 for a percentage of coverage at **91.4 %** an increase in coverage of 6.6 %.

During the night shift the department fills three (3) per-diem shifts for a total of 1116 hours during the 31 day period. We had a total of 4 vacant hours during the night and as a result we had reduced coverage during that time. We did cover 1112 hours of the 1116 leaving us with **99.6%** of coverage an increase in coverage from last month of 2.45 %.

We also provide one (1) full-time paramedic/firefighter stationed at the Public Safety Building per twenty four (24) hour period. We also provide one (1) full-time paramedic/firefighter stationed at the North Station during the day for twelve (12) hours. We try to fill the remaining twelve (12) hours at night with a per-diem paramedic/firefighter but are not always successful. This month we were able to cover **87.1%** of the night shifts at North Station with a per-diem paramedic.

Our training performance during August has increased from last month. The department had 696 total training hours for the month.

Training hour totals below are for the last four months.

May 2017	267.25 Hrs.	June 2017	220.50 Hrs.
July 2017	186.75 Hrs.	August 2017	696.00 Hrs.

## **Monthly Activity Data:**

- Statistics for the month of August are listed below and attached herein.

	2017	2016	2015
Total Calls for the Month	256	230	239
Total EMS Calls for the month	171	150	170
<i>(The EMS numbers are a part of the total)</i>			
Year to Date Totals	2005	1823	1868

We had requested a mutual aid ambulance 4 times in August, of those calls 1 resulted in transport to the hospital by mutual aid. Our third ambulance handled 6 additional calls during the month.

### **Fire Prevention/Inspections:**

- 3 New Plans Reviewed
- 5 New residential inspections
- 3 Follow up residential inspections
- 21 Commercial inspections
- 3 Follow up commercial inspections

### **Of Interest:**

- Early this month we attended the funeral for Chance Gallant. He had been a live-in student at East Windham for a year. He was tragically killed in Sebago in early August and was still a member of the Sebago Fire-Rescue department.
- Crews responded to a fire in the basement at 73 Hall Road. Crews responded quickly and damage was contained to the laundry area of the basement.
- We also responded to a second alarm fire at 114 Tandberg Trail. We were fortunate that the alarm came in just after shift change providing us with a few extra personnel at the station. No one was injured in the fire and although the property is likely total loss aggressive work by the first arriving crews limited the extent of damage.
- This month we were able to complete full fire inspections of two large multi-occupancy commercial properties. We have been working very well with their property owners.
- We conducted two physical ability assessments for those that have applied for Call Company, per-diem and full time positions. Those that successfully completed the assessment will be moving on to interviews.
- Three of our new live-in college students successfully completed a three academy with 20 other new live-in students from the area.
- As a result of our EMS quality assurance program we have reduced the response on some of our medical calls. We have found that the response we were sending was more than what was needed based on our arrival findings.
- The pickup truck from East Windham Station had been moved to Central Station for the summer. For the two and half months it was assigned to Central we put 1,800 miles on it. This is 1,800 miles that weren't put on Engine 7.
