 Tax year 2018-FY 19
 -31,799,310.

Aside from the statutory
 property tax levy limit enacted
 by the Legislature in 2005,
 the amount of property tax
 revenue is a function of the
 budget approved, ultimately, by
 the voters at town meeting.
 That appropriation (the legal
 authorization to expend public
 funds) less the amount of
 revenue estimated from all
 revenues other than property
 taxes results in the amount of
 taxes to be raised. The amount
 raised for overlay, which pays
 for tax refunds or allows for
 reductions in property taxes
 due to abatements or other
 changes in value after the
 budget has been set, is not
 counted as a revenue for
 budgetary purposes. Any amount
 of overlay not used in the year
 in which it is raised
 contributes to fund balance at
 the end of the fiscal year.

Rescue fees are only partially within the Town's control, since they are dependent on the number of calls, the reimbursement rates under Medicare and Medicaid, payments from insurance companies, and collections from individual patients. The Town provides a self-declared hardship waiver, and despite using a collection agency, still builds up substantial balances of uncollectible revenue. In order to more appropriately account for revenue, this account shows the gross amount of estimated billings with an offset for "bad debt" in 14100-48210.		1.00	705,000.00		705,000.00 *

1000 34370 - SOLID WASTE FEES		1.00	550,000.00	550,000.00 *	-550,000.00

Revenues from the sale of Windham RECYCLES! trash bags pays for most of the cost of the Town's curbside trash collection, transportation, and disposal program (account 12900). This account also reflects the sale of recycling bins. It is important to note that Windham has chosen to pay for most of its program through user fees, while other communities charge less for their bags, but also subsidize their programs to a far greater degree than Windham does.

--------------------------------------	--	------	------------	--------------	-------------

Investment income is a function of the Town's cash flow, cash balances, and interest rates. The Town follows investment policies which make protection of principal a top priority. As a result the Town invests in highly secure instruments that are either insured or (since the Town's available cash for investment exceeds insurance limits) collateralized (meaning that US government or agency securities are pledged as collateral). Interest income is low because of low interest rates and the focus on security.

Funds from the Town's municipal development, or "TIF," districts, used to offset expenses in the operating budget. They are called "TIF" districts because they operate by tax increment financing - using the incremental value to generate tax revenue and capture it for certain purposes, and realizing financial benefits by sheltering value from the action of state formulas governing the distribution of municipal revenue sharing, state school aid, and the town's share of county tax.

	Health Reimbursement of co-insurance costs for all employee groups. This was previously included in account 11900-42110 Health Insurance. In the future, this will be assigned to fund balance. The PPO-500 plan is considerably less costly to the Town, but puts more burden on the employees. The HRA helps to fill that gap. The increase over FY19 reflects an increase in the total number of employees enrolled in healthcare.

Police Cruisers are essential tools to provide law enforcement services and providing a projected police presence in the community. Effective fleet management has allowed us to maintain a fleet of "primary" patrol vehicles that are in excellent mechanical shape and low mileage, therefore this year we will request only two patrol vehicles. We have been migrating away from reassigning old front line patrol cars to other line

	With the anticipated storage space and the specific oils and lubricants needed for the Ford Utilities; it is being requested to purchase the recommended fluids in bulk. navigate the roads during some
 of the worst winter weather
 have been affirmed and
 surpassed.

Some of the overall general
 maintenance has decreased.
 This current year a more
 comprehensive maintenance plan
 has been implemented; to
 include tune-ups ahead of the
 Ford recommended Maintenance
 Schedule. Those recommended
 services only take into account
 the mileage on the vehicles and
 not for the engine idle time.
 We started to see frequent
 check engine lights and those
 were traced back to some of the
 routine maintenance needing to
 be completed ahead of schedule.
 The brakes on the Ford Utility
 are lasting longer. On the
 average the front brakes are
 being replaced at 40,000 miles
 in comparison to 16,000. The
 rear brakes are being replaced
 on the average at 80,000
 opposed to 30,000. Changes in
 vehicle technology and the
 ability to trouble shoot
 mechanical error codes and
 malfunctions have created
 challenges for the mechanics.
 Windham's public works
 mechanics have found with these
 challenges that there has been
 an increased need for outside
 dealership labor. This is in
 part due to the high costs of
 required diagnostic work, along
 with the release of the
 diagnostic equipment and
 programming that is not
 available from the manufacturer
 for two to three model years.

Costs for work not able to be performed by Public Works or Police Department employees to include but not limited to: alignments, bodywork, insurance deductibles, and cruiser decontamination etc. Over the last year we have used dent removal companies as a means to fix damaged cruisers opposed to going to a body shop. These fixes have costs that ranged from \$150 - \$350 dollars. In one instance a dent removal company was able to remove dents for approximately 25% of the cost of an insurance claim and deductible. We have also been treating the undercarriages of vehicles which have an anticipated service life of 5-7 years.

	This line will cover staff time when visiting the library to empty the book drop on holidays. We have made the time spent at the library as efficient as possible but require a few hours throughout the year for staff to work on the holidays. Without this time spent, our book drop would overflow and the door to it would be blocked from opening. Also, the work the next day the library is open would be overwhelming. Allowing the book drop to be emptied on a holiday is necessary for our operations.

	Consultant services to cover special circumstances such as complex commercial abatement challenges and special programing for assessing software. In the past three years there have been many commercial abatement applications that had the potential to be challenged at the State Board level. Such abatements would require the hiring of a commercial appraiser and an expert witness to defend the Assessor's assessed value. To date there is one pending abatement application. This account also covers expenses that may be incurred to hire a consultant to assist the assessor in making pricing adjustments within the assessing software program.

In the fall of 2019 the assessing software program, Vision Appraisal, will need to be updated due to the end of life of the Sequel operating system. \$15,000 is needed to fulfill the installation and conversion contract plus a prorated amount of \$3,500 for cloud hosting through June 30, 2020.					
On the advice of our IT Manager Brett Burwell, we have decided to pay Vision to cloud host the Town's assessment data. This approach secures the data and eliminates the expense of the Town purchasing a new server, server replacement over time and licensing expenses.

While I would like to continue funding the GIS internship to update stormwater data I believe the town is quickly becoming a community large enough to justify redistributing some of this funding to permanent additional GIS personnel . Under my direction Taylor Burns of this office has expressed an interest and demonstrated skill in GIS mapping. I propose that some of this funding be directed to compensate Taylor for taking on the added responsibility of some year round GIS project requests that an intern would not be available for.

	<p>This account funds the town's capital equipment replacement plan. By planning for the acquisition and replacement of capital equipment over a multi-year cycle, the town is able to manage the amount of annual spending without spikes or troughs in the budget from year to year. The plan includes capital equipment - vehicles, mobile equipment, computers and other technology, and office and other equipment - based on the current mission of the various departments and offices, and current estimated prices. The plan is updated annually to reflect adjustments in both mission and pricing, and uses a combination of pay-as-you-go (i.e. cash) and lease-purchase financing.</p> <p>Items listed that display - leases - will be purchased in FY 20 with Lease payments occurring in future years (They will show in Operating Budget in account # 19500).</p>

	This is one of two contingency funds included in the annual budget and offset by fund balance (i.e. no additional property taxes were raised to fund it). It was established specifically to address the challenges presented by an unusually severe winter and expenses such as overtime and road salt in public works, or to deal with energy price spikes without adding unnecessarily to department budgets and without seeking a supplemental appropriation by calling a special town meeting.
