**Re: Subdivision Amendment Sketch Plan Application
Veery Estates Condominium
RMills, LLC - Applicant**

Dear Jennifer:

On behalf of RMills, LLC we have prepared the enclosed application, plans and supporting documents for sketch plan review of a proposed amendment to the Veery Estates Condominium project located on Junco Drive. The Town Council approved a zone change request which rezoned the rear portion of the property from Farm Residential to Medium Density Residential, which allows for up to 16 dwellings on the property. The applicant is proposing to construct five additional duplex buildings to bring the total project unit count to 14 dwellings. The total road length will be 700 feet from River Road to the end of the cul-de-sac.

The total project impervious surface is approximately 38,800 square feet including pavement and buildings. Total site disturbance will be approximately 2 acres and will require a Stormwater Permit By Rule from the Maine Department of Environmental Protection.

The new building will be served by a common wastewater disposal field and an extension of the private water line that is served by the Portland Water District. Electrical utilities will be extended underground.

Upon your review of this information, please let us know if you have any questions or require any additional information.

Sincerely,

DM ROMA CONSULTING ENGINEERS
