

This is a request for an exemption from the proposed 250 foot watershed protection zone for the Pleasant River and any other rivers and/or streams that may be included in this type of protection zone in the future; for the farms and agricultural lands in Windham that have a Nutrient Management Plan in place.

A Nutrient Management Plan contains rules and regulations from the DEP and USDA that farms must abide by and update every 5 years. Each plan is unique to the lands it covers. A Nutrient Management plan contains regulations for spreading fertilizer, spreading manure, storing manure and fencing near watersheds that must be followed along with other land use regulations.

Below is a partial list of farms and agricultural used lands that may be covered by a Nutrient Management Plan.

Charles Hall	Russell Bacon
Elizabeth Dreamer	Russell Hall
John Holmes	Peter Young
Corey Partridge	Kathryn Partridge
Dutton Hill	Lee Allen
Michael Bowden	Clayton Haskell
