Subject: 68 High Street

Good Afternoon - given all the concern people in the High/Androscoggin/Depot street area are displaying regarding the proposed Androscoggin Street apartment building and the single and duplex homes proposed for the lot next to 68 High Street, I was quite surprised to learn that the new owner of 68 High Street is converting the barn into 2 more units. That property is going from 2 units to 4 units. Renovations are well underway.

Pardon my ignorance, but I have to assume that isn't something that neighbors have to be notified about and/or does not need Planning Board approval?

Sincerely,

Ellen McGill
